SUN SKIING

Snow-reliable. Sun. Enjoyment.

Boundless, surprising, sunny and proverbial snow-reliable. Those who come to Nassfeld - with 29 cable cars and lifts and 110 kilometres of pistes one of the Top 10 ski resorts in Austria - can look forward to the most hours of sunshine in the Alpine region, wide pistes and an average of 2 metres of snow. Located on the southern side of the Alps and directly on the Italian border, you enjoy the southern lifestyle of „dolce far niente“ in the Austrian ski huts and in the Italian ristoranti. The pleasantly fresh, healthy mountain air as well as the unique panorama are not only good for the organism, but are a prerequisite for a healthy, relaxed winter holiday.

Queuing was yesterday: „Ski in - Ski out“ - numerous hotels, B&Bs and apartments are located directly along the pistes, and the Nassfeld ticket shop saves time and queuing at the lift ticket office, ski rental and ski school. Instead of après ski - which never really dominated at Nassfeld, numerous ski huts and bars offer a lounge and chill ambience with pleasant background music. Friendly helpers, called „Buddy's“, help, inform and give tips. There is a special offer for families: under the motto „Kids invited“, children under the age of ten pay nothing for accommodation and skiing from 15.03. - 19.04.2025!
