FAMILY SUMMER IN THE NASSFELD- PRESSEGGER SEE REGION

Family World Boundless. Happy. Laughter.

Simply immerse yourself - not only in Lake Pressegger See, with water temperatures of up to 28 degrees, but also in the Carinthian adventure world on the sunny southern side of the Alps.

A surprisingly wide range of impulses for diverse and fascinating experiences between mountains and lake in the World of Mountains & Lakes await adventurers of all ages: „In the Realm of the Wild Bunch“ on the Sonnenalpe, kids experience a smuggler’s story with Speckwutz, Livio and Sigggi and can count on the support of the clever foxes „Fix & Foxi“.

In the „Realm of the Lake Witch“ at Lake Pressegger See, the lake witch emerges from the warm lake water. Instructions are provided in two comic books. Happy parents are not far away where children build dams, marvel at mill wheels and water fountains or wade barefoot in a small stream. Cycling adventures, enjoying regional delicacies on the many alpine pastures and swimming in the lake... Get ready to be surprised!

TOP TIP

Comic heroes on the mountain & lake

Experience the comic heroes „Fix & Foxi“ with Lupo and the wild bunch of smugglers on the adventure playground directly in the border area „Austria and Italy“. There are two different comic books for the children - „In the Realm of the Wild Bunch“ and „In the Realm of the Lake Witch“, thus they can follow the tracks of a bunch of smugglers at original locations.

And a visit to Carinthia’s 1st adventure park at Lake Pressegger See is of course a must.
