PANORAMA HIKING

NASSFELD-PRESSEGGER SEE

Hike World

Boundless. Happiness. Tracks.

Every summit seems different. But every time, a horizon opens up that gives you that incomparable feeling of vastness, freedom and diversity. Europe's largest alpine region rewards hiking fans with a unique combination of mountain and lake experiences on Austrian and Italian terrain.

The Carnic Alps and Gailtal Valley Alps offer a surprisingly wide range of impulses for diverse and fascinating panoramic hikes. 25 themed trails, such as the „Via dolce vita“ on Carinthia's No. 1 adventure mountain, unique geotrails or a culinary leisure tour on Italian and Austrian terrain, reflect the unique location in the Alpe Adria region.

Four long-distance hiking routes, such as the Carnic Milky Way along the Carnic High Route, lead past numerous mountain lakes or provide a view of Lake Pressegger See - and even of the upper Adriatic Sea on a clear day. Three summer mountain railways are available at Nassfeld for an effortless ascent to the World of Mountains & Lakes.

Enjoy regional delicacies from local farmers on one of the 46 serviced alpine pastures, hike through the impressive reed belt on the Slow Trail at Lake Pressegger See, or ...
Get ready to be surprised!

TOP TIP

The Carnic High Route in the Carnic Alps Geo Park

The long-distance trail leads in freely selectable stages along the main ridge of the Carnic Alps, past numerous mountain lakes. Some sections are designed as geological nature trails, so-called geotrails. Interesting facts about 500 million years of the earth's history are conveyed and mysterious graptolites, plant fossils, beautifully shaped shells, fossilised prehistoric triops and cephalopods can be discovered here.

The Carnic Milky Way enhances the unique hiking experience in the Hike World. Exciting constellations on various themes line the Carnic High Route and invite to discover the trail in a completely new dimension.

HOLIDAY TIPS

- ▶ Cross-border trails all the way to the Italian „Val Canale“
- ▶ Carnic High Route - from alpine lake to alpine lake
- ▶ Geotrails in the Carnic Alps Geo Park
- ▶ Culinary leisure tours in Austria and Italy
- ▶ Slow Trail at Lake Pressegger See
- ▶ „Sky Plate“ platform with views of the mountain ranges in A, I, SLO
- ▶ „BergWasser“ Aqua Trail
- ▶ Carnic Milky Way - hiking in new dimensions
- ▶ Unique vie ferrate and climbing routes; rock labyrinth (climb inside the mountain - „Däumling“)

- ▶ Numerous included/advantage offers

„Why is it so beautiful here?

What is special is the variety of possibilities, whether leisurely hiking across blooming alpine meadows or limitless mountain experiences, whether culinary hikes to huts or a cappuccino in Italy - everything is possible!

Why do I recommend it?

Because it promotes health and protects the climate!

Because it is healthy – www.gehsund.com”

Hanni Gratzner, mountain guide

PANORAMA HIKING IN THE WEISSENSEE REGION

Hike World

Extensive. Happiness. Tracks.

Surrounded by the Gailtal Valley Alps, with a favourable climate, situated on the southern side of the Alps in Carinthia, the 12 km long and fjord-like Lake Weissensee conveys a calm and relaxing atmosphere with countless lake views of the turquoise shimmering water, balm for the soul included.

„Pure nature“ is the best way to describe the unique symbiosis of water, meadow and forest – whether on the mountain or at the lake. Walking and hiking trails lead around the lake or almost everywhere directly from the lakeshore (930 m above sea level) to the extensive Hike World of the Nature Park at Lake Weissensee.

TOP TIP

Weissensee Slow Trail

This unique hiking trail leads directly along the lake, with short elevated sections, from the west shore to the east shore. Stunning views with the lake's display of colours ranging from dark green to turquoise blue! Idyllic bays and places for a rest create a feeling of relaxation and „pure nature“. Stop for refreshment on the eastern shore with a view of the Lienz Dolomites.

The way back is pleasant: e.g. on board the „MS Alpenperle“ with environmentally friendly hybrid drive.

„Hiking support“ is provided by the Weissensee boat services or the summer mountain railway. Places for rest and refreshment are located directly at the lake or on the alpine pastures, where you can enjoy Weissensee fish as well as regional delicacies.

Since every accommodation at Lake Weissensee has its own lakeside beach, a dive into the lake, with water temperatures of up to 25 degrees, is also a „must“ after a hiking tour.

HOLIDAY TIPS

- ▶ Weissensee Slow Trail on the lakeshore - return by boat
- ▶ Leisure tour with habitat observation and raft trip with fish sampling
- ▶ Hike to the alpine pastures with the best views and real moments of happiness
- ▶ Regional culinary delights on the alpine pastures (May to October!)
- ▶ Every accommodation has its own lakeside beach
- ▶ Guided programmes accompanied by nature park rangers
